Weakness Apparent
in All Grain Pits

Wheat Market Is Erratic Most
of the Day; Provisions
Firm and Strong.

CHICAGO, March 18.—Prices in all the
grain pits were inclined to sag today.
Wheat closed a shade higher to 1/2¢
lower. Corn showed a net loss of 1/2¢
to 1/4¢, and oats 1/2¢ to 1/4¢. Provi-
sions were generally firm and closed at
advances of 2 1/2¢ to 2 1/2¢.

Wheat was erratic the greater part of
the session, but the volume of trading
was not large. A further break in corn
prices followed the effect of additional
crop damage reports. The market dis-
closed its greatest strength on opening
transactions, which were at gains of a
shade to 1/2¢. During the day, May
sold between \$1.12 1/2 and \$1.12 1/2, while July
ranged between \$1.07 1/2 and \$1.07 1/2. At
the close, prices were almost on the lowest
level. Final quotations on May and July
were in each case 1/2¢ below the pre-
vious close, at \$1.12 1/2 and \$1.06 1/2, re-
spectively.

An exceedingly poor demand for the
cash grain, which resulted in declines of
1/2¢ to 1¢ at the sample tables, inspired
general selling of corn. Sellers centered
their attack on the May option, and this
delivery was the weakest of the list. No.
3 yellow corn sold at 25 1/2¢. The May
delivery ranged between 62 1/2¢ and 63¢.
The close was weak, with May at 62
1/2¢.

Oats were weak. The market was
bearishly affected by the heaviness of
corn and by a decline of 1/2¢ to 1¢ in
cash prices. The market closed weak at
almost the bottom, with May at 42 1/2¢.
Provisions closed firm, with prices near
the top. Final figures on May products
were: Pork, 22 1/2¢; lard, 14 1/2¢; ribs,
13 1/2¢.

NEW SPUDS ARRIVE ON PRODUCE MARKET

Good Demand for New Supply
of Fresh, Green Food-
stuffs.

New potatoes put in an appearance on
the local produce market Friday and the
product retailed at 12¢ a bushel. Old
potatoes are selling at 75¢ and 80¢ a
bushel. There was also a good supply
of fresh eggplants and radishes, young
cucumbers and turnips on the market Fri-
day and they met with a good demand.

The butter situation remains unchanged,
but the price of strictly fresh eggs has
gone down to 25¢ a dozen. In fact,
some dealers offered them as low as 20¢
a dozen.

Bradstreet's Review.

NEW YORK, March 18.—Bradstreet's
tomorrow will say of the market:
"Trade irregularly is still manifest,
but reports as a whole show a still fur-
ther improvement in weather and
consequently in trade reports is most
manifest in the agricultural sections of
the west, northwestern and southwest."
There is little disposition to deny that
trade is considerably better than a year
ago, a period also of waiting trade and
in excess of this time two years ago.
A better business has developed in
finished steel lines, specifications on bars,
in plate, sheet and wire and in heavy
and new business in structural
steel is very good.

The coal trade of the west has been
more active and the railroads have been
busily employed hauling coal in prepa-
ration for eventualities proceeding from
the demand for higher wages by the bitu-
minous coal miners.

"Business failures in the United States
for the week ending with March 17 were
208, against 250 last week, 221 in the
week of 1909, 303 in 1908, 157 in 1907
and 170 in 1906."

Dunn's Trade Review.

NEW YORK, March 18.—R. G. Dunn &
Co.'s weekly review of trade tomorrow
will say:
"A view of a number of abnormal, puzzling
and disturbing developments, the
volume of business is large and steadily
expanding. Conditions are generally open
and weather conditions improve. The
expansion noted in iron and steel contin-
ues chiefly in finished materials. The
railroads are replenishing old equip-
ment and active in the structural division

Slightly improved conditions in the
footwear market last week are still ap-
parent, although no particular activity
exists the disturbing element between

buyers and sellers still being the ques-
tion of prices."
